

WALL MOUNTED PERGOLA GAZEBO 3 POSTS

ELECTRIC 4x5m

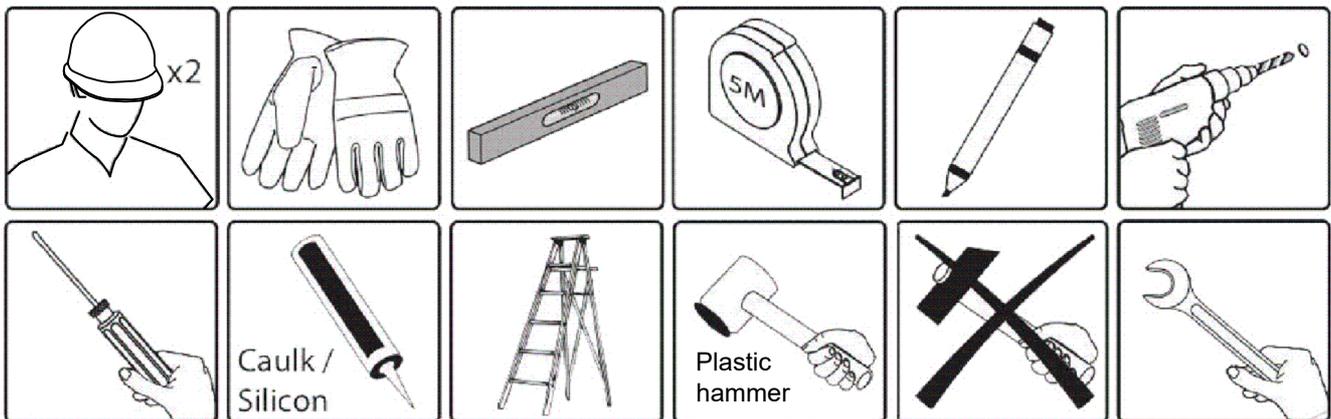

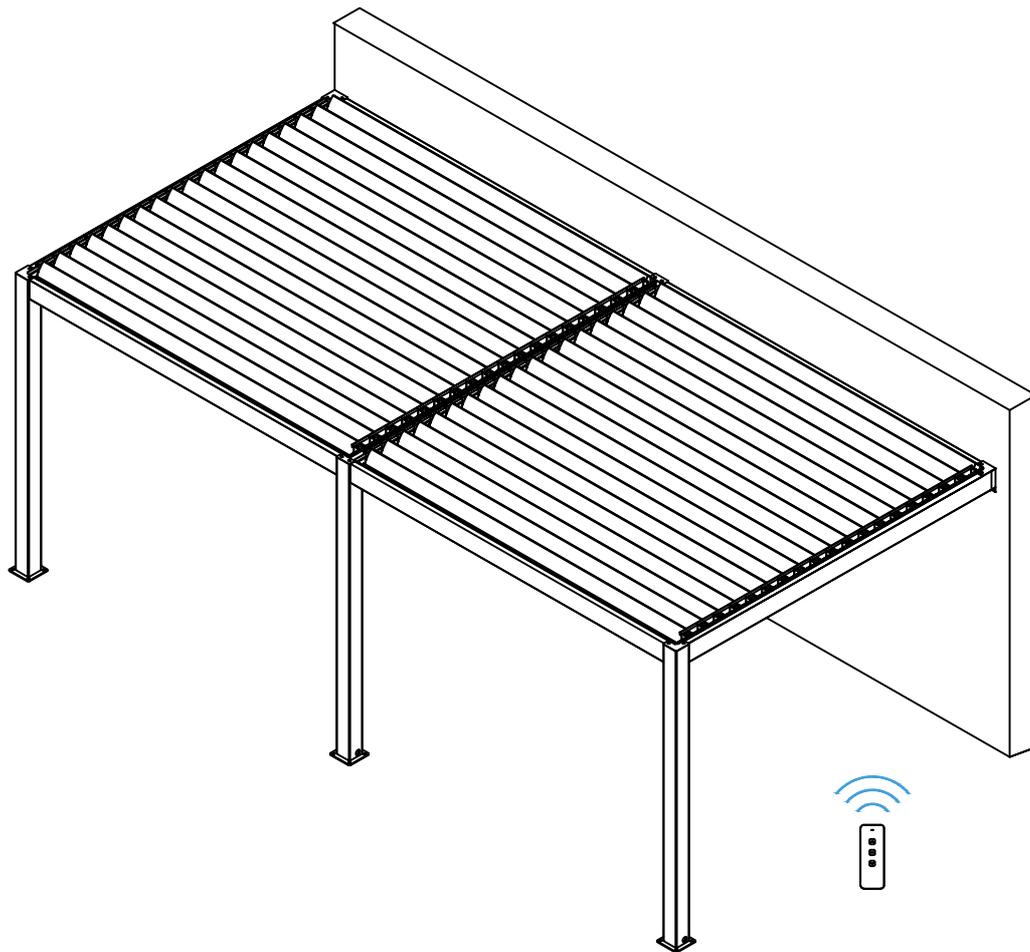

Installation and Wind Management Guidelines

1. Installation on Various Surfaces

For WPC (Wood Plastic Composite), antiseptic wood, ceramic, or stone flooring, it is essential to either concrete the post directly or construct a 50cm concrete foundation beneath the base plate to secure it firmly.

2. Wind Management

In the event of strong winds, the louvers must be opened to maintain proper air circulation and minimise wind resistance.”

Motor Wires Diagram - The control box is on the post

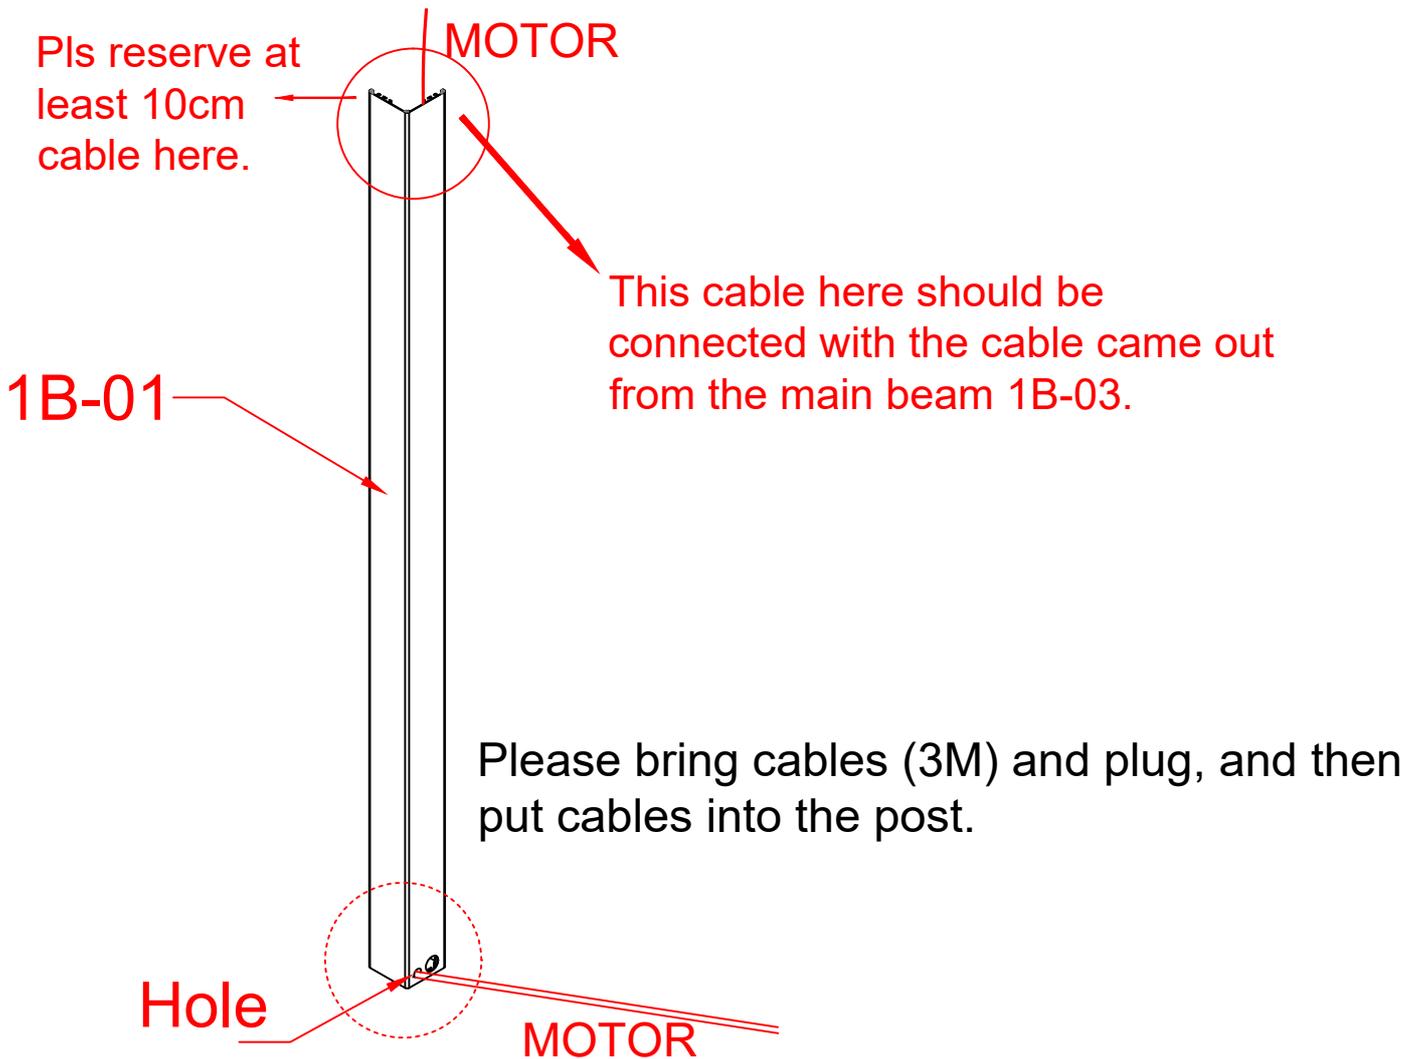

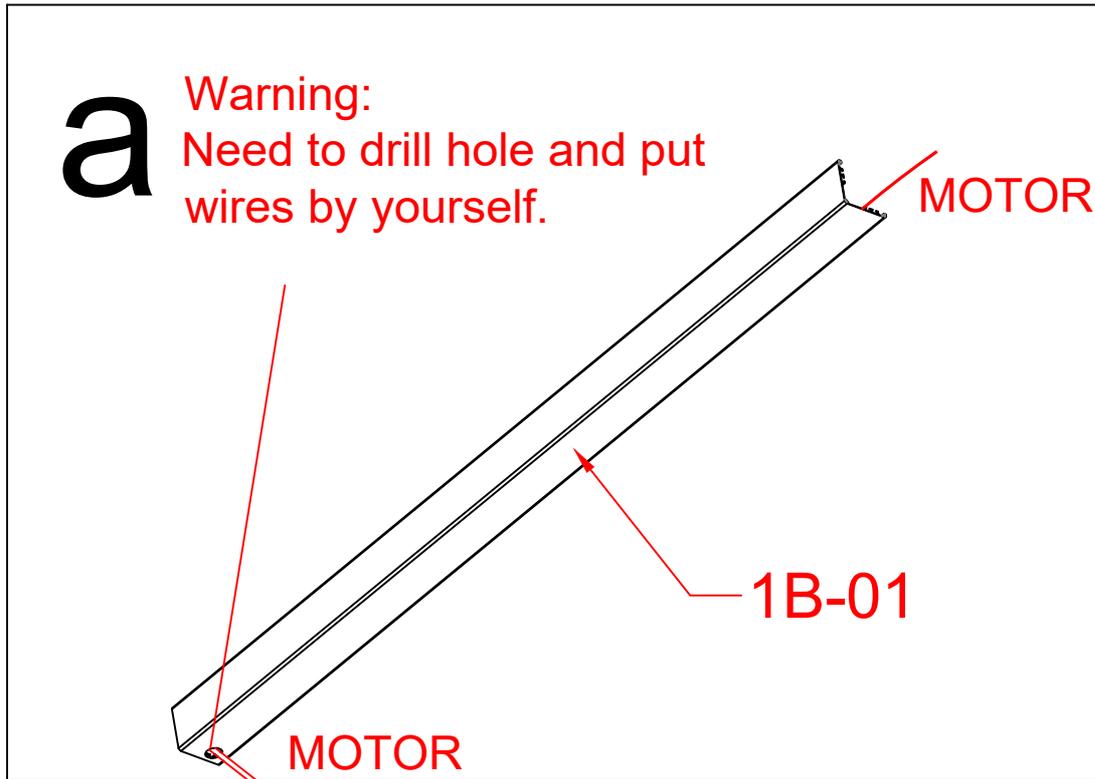

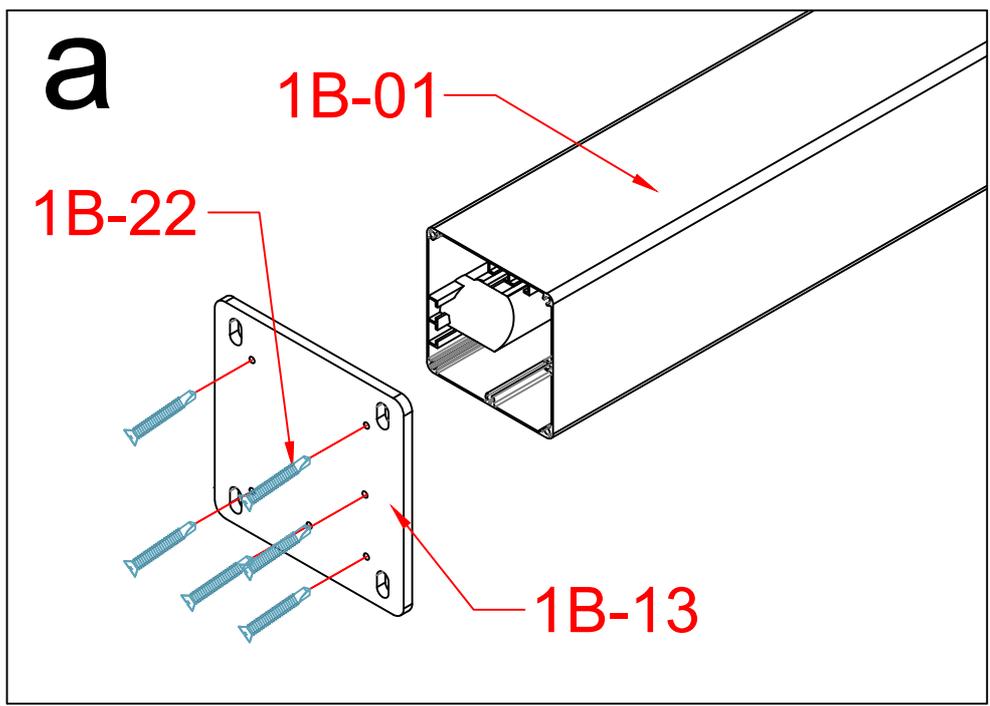

Please bring cables (1.5M), power cords (1.5M) and plug, and then put cables and power cords into the post.

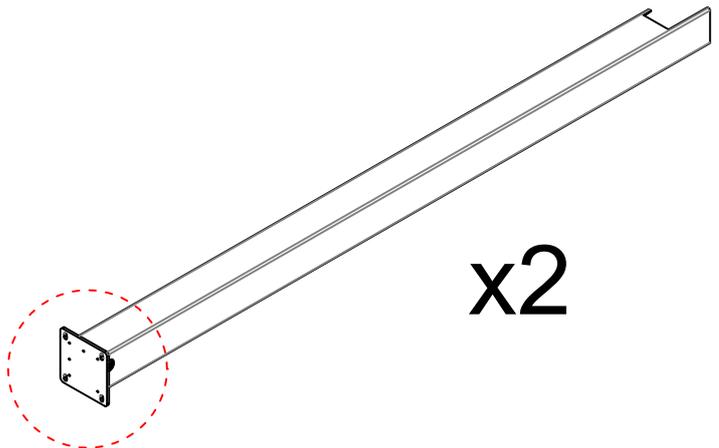

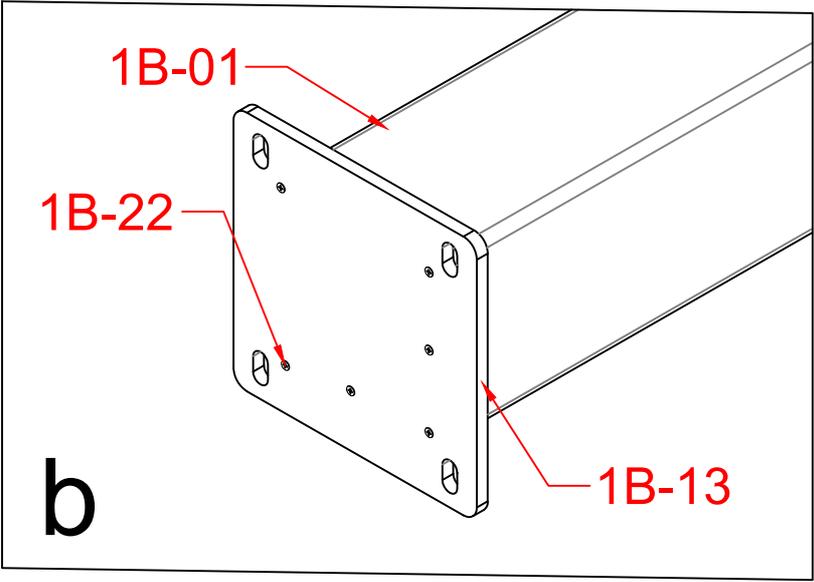

Motor Wires Diagram - The control box is not on the post

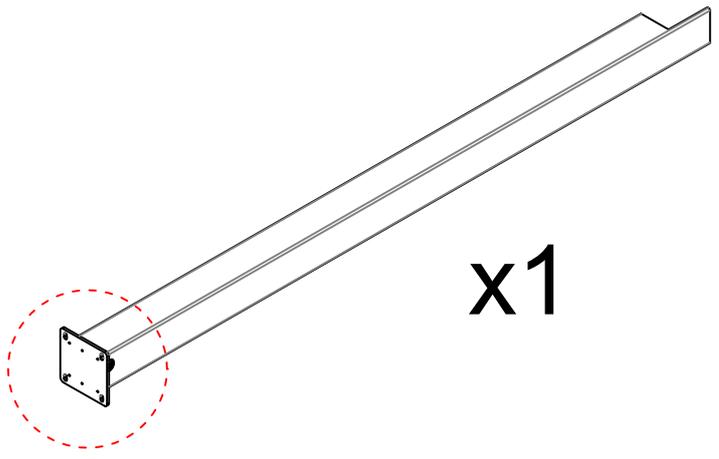

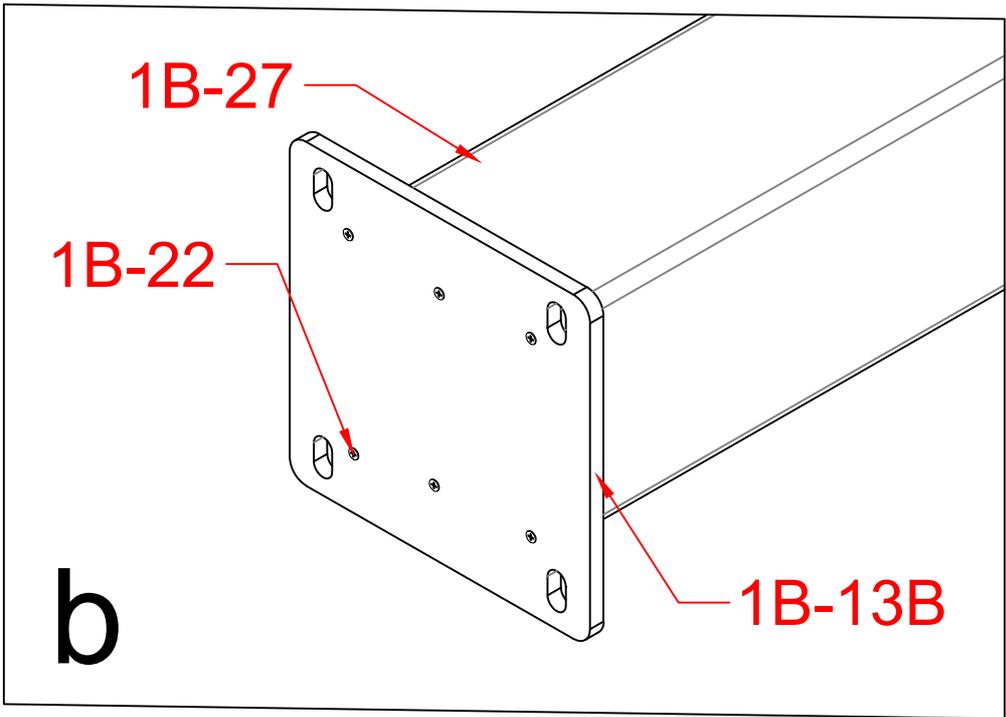

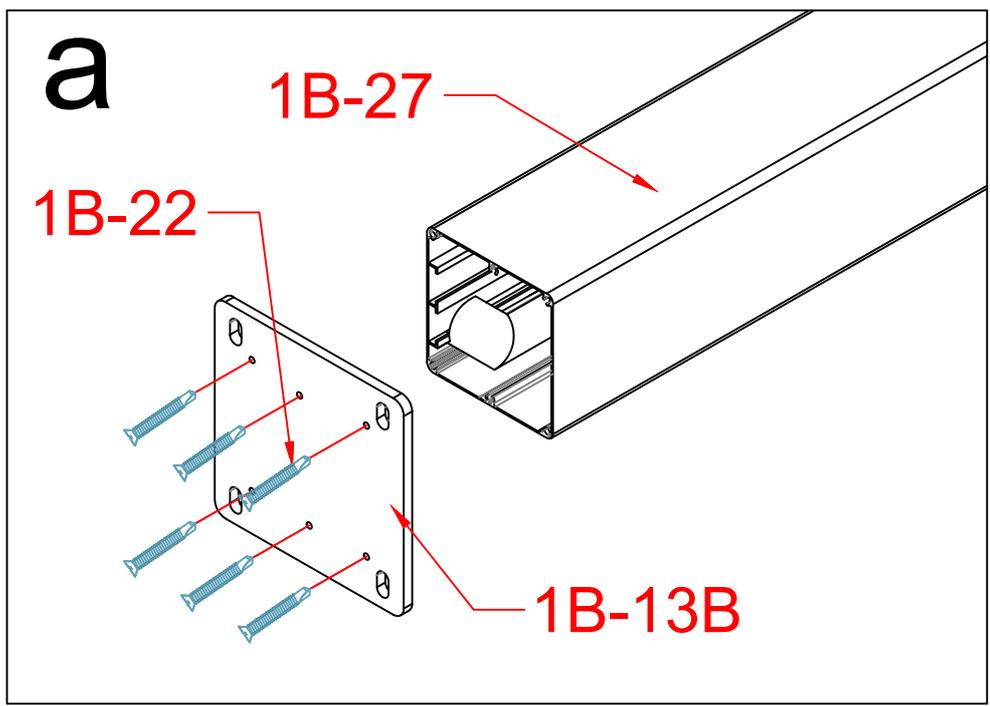

If there are electrical components including motor, blinds or LED light, Set the wire through the post firstly, otherwise it would be very difficult to do so after pergola was assembled.
